

SHILPA

Sr. Business Analyst – Healthcare

gopidishilpa11@gmail.com | +1 (614)-683-9466

PROFESSIONAL SUMMARY

Results-driven professional with 10+ years of experience in business analysis, process improvement, and strategic initiative delivery. Strong expertise in leading the gathering, analysis, and documentation of business and functional requirements (BRDs, FRDs, SDDs) for complex technology projects. Hands-on experience with regulatory standards including SOX and PCI, ensuring compliance in enterprise operations. Proven ability to perform AS-IS and TO-BE analysis, gap analysis, and process re-engineering to improve operational efficiency and drive project success. Skilled in creating user stories, use cases, workflows, and process flow diagrams using tools like Visio and JIRA, supporting robust project planning. Extensive experience working in Agile/Scrum environments, participating in sprint planning, backlog grooming, and daily stand-ups, facilitating project execution. Strong experience in data analysis, data mapping, validation using SQL, and integrating systems using REST/SOAP APIs, JSON, and XML for seamless data exchange, supporting data integration programs. Expertise in supporting UAT, test planning, defect tracking, and stakeholder sign-offs, ensuring quality project delivery. Proven track record of collaborating with and coordinating cross-functional teams, SMEs, and diverse stakeholders to deliver scalable solutions and drive digital transformation initiatives. Strong communication, presentation, and stakeholder management skills with the ability to bridge business and technical teams. Experienced in risk identification, issue resolution, and continuous process improvement, contributing to successful project outcomes. Self-motivated professional with excellent analytical, problem-solving, and decision-making abilities, committed to delivering high-quality solutions aligned with business goals.
